UM'S FALL QUARTER ENROLLMENT SHOWS GAIN OF 394, UP 4.6%

MISSOULA--

The total gross enrollment at the University of Montana, Missoula, for fall quarter students 1971 has reached 8,905, an increase of 394 or 4.6 per cent compared with the fall 1970 figure of 8,511 students.

UM registrar Wayne C. Woolston said the record enrollment this fall is due mainly to an increase in the male student population, which has reached 5,847, an increase of 271 males or 4.8 per cent compared with the total of 5,576 males enrolled in the fall of 1970.

The increase in male students at UM is partially attributed to an increase of 102 veterans or 12.2 per cent. A total of 1,100 veterans are enrolled this fall compared with 998 a year ago.

The number of student women at the University also is up this fall. A total of 3,058 women have enrolled for classes this fall, a gain of 123 or 4.1 per cent compared with the 2,935 enrolled in the fall of 1970.

The total gross enrollment at UM includes 129 Minuteman Missile launch control officers enrolled in the Master of Business Administration degree program at Malmstrom Air Force Base, Great Falls. The Malmstrom program, conducted through the Air Force Institute of Technology, is under the direction of the UM School of Business Administration. Dr. Bernard J. Bowlen, Great Falls, is resident administrator of the MBA degree program for the University.
